

Quick Organizational Audit: LGBT Visibility & Inclusion

The Northwest Network of Bisexual, Trans, Lesbian & Gay Survivors of Abuse

2001

Often we have only a short window of time to communicate that we are open and prepared to support a person who is experiencing domestic violence or sexual assault. Ensure that your organizations commitment to supporting lesbian, bisexual, trans and gay survivors is VISIBLE when people enter your organization, read your outreach brochures or check out materials. It can make all the difference.

In the organizational audit below, take ten minutes to walk through your program and identify all the information you can find that represents lesbian, bisexual, trans and gay (LBTG) people – some of this material may be negative and some may be positive. Identify areas of strength and areas where your organization can use improvement.

This information can be used in the first steps of a *LBTG Visibility and Inclusion Plan*!

ENTER THE FRONT DOOR OF YOUR AGENCY, OFFICE, SHELTER.

- How would a person entering your agency know that they were welcomed to be out as a lesbian, bisexual trans, gay or otherwise queer person?
- What overt information would tell a person that it is ok or not ok to “be out”? What covert information would tell a person that it is ok or not ok to “be out”?
